Description:

ESADE was established in Barcelona in 1958 with the creation of the Undergraduate and Doctorate Programme. Now, with more than 45 years' experience, it continues to contribute positively to the development of business leaders, their teams and organizations, and over 46,000 executives have already joined us on numerous projects.

Barcelona is the perfect place to develop any academic and professional activity. Both thanks to its geographic location and to its character, the Catalan capital is an important worldwide industrial, commercial and business centre. An area of influence, currently called "Greater Barcelona", has gradually emerged around the city, and now constitutes one of the most important economic centres of southern Europe.

ESADE's Barcelona campus includes the Business School (considered to be the third best in Europe according to The Wall Street Journal), the Undergraduate and Doctorate Programme, and the Law School. ESADE's training offer is completed with the Language School and the School of Tourism. They all offer a complete, rigorous, multifaceted and global education in an international environment, connected to the world of work and adapted to the new market trends.
