

PHYSICAL PLANT RECYCLING PROGRAM OVERVIEW

The Physical Plant is authorized by the Office of the President to manage institutional recycling of office paper, aluminum cans, and newspaper. This is done with the assistance of WFF Facilities Services, Loyola's custodial and grounds contractor, and specialized recycling contractors.

Blue recycling containers labeled "Office Paper Only" are located throughout the buildings as listed. Containers labeled "Aluminum Cans Only" are located at building exteriors as listed. These containers are approximately ½ cubic yard in capacity.

An 8 yard dumpster for newspaper collection is located on the West Road at the south end of Bieber Hall. This dumpster is red and green, and is designated for newspapers only.

Please ensure that only office paper, aluminum cans, or newspapers are deposited into the designated containers. The recycling contractors can not pick up containers if food, trash, or other substances are placed in them.
